

Today's Lesson: How to make a difference in a child's life

The Society of Louisiana CPAs (LCPA) is partnering with Louisiana Bankers Education Council (LBEC) and Junior Achievement (JA) to educate and inspire students about work readiness, entrepreneurship and financial literacy. Students will spend one school day participating in age-appropriate JA activities that help them understand the important connections between education, career, salary and desired lifestyle.

What super-powers do you need?

None! All lessons are pre-planned and all materials are provided in advance. A JA staff member will provide training for first-time volunteers and a step-by-step guide will assist you in the classroom. No prior JA or classroom experience is required.

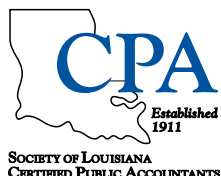

How much time will it take?

JA Day itself is on average 8:00 am to 2:30 pm. The 30-minute, required training (if you're a first-time volunteer) can be scheduled with your area JA Program Manager. You also need to allow some time to go through your classroom packet to prepare the materials in advance (some things have to be separated). These important steps, along with your enthusiasm, help ensure you're ready and confident to make the best presentation possible.

CPAs and non-CPAs are welcome to participate!

Involve all your staff and make it a company-wide community service project. It's your opportunity to experience a memorable day while making lasting impact!
